NPSF Patient Safety Coalition Welcomes Ivenix

*National Patient Safety Foundation Program Aligns Stakeholders
from Across Health Care in a Unifying Mission to Promote Safer Care*

Boston, MA (November 16, 2016)—The National Patient Safety Foundation (NPSF), a central voice for patient safety since 1997, recently welcomed [Ivenix, Inc.](#), as the newest member of the [NPSF Patient Safety Coalition](#).

Ivenix, based in Amesbury, Mass., is a medical technology company focusing on transforming infusion delivery for hospitals and other health settings, by bringing innovation to infusion management with a fundamentally different pump technology, simplified user interface, and IT architecture to support interoperability and data driven infusion therapy.

“Patient safety and ease of use for clinicians are our highest priorities and a centralized focus for our team,” says **Susan Niemeier**, MHA, BSN, RN, Chief Nursing Officer of Ivenix. “We are looking forward to working with the Foundation and other Coalition member organizations to advocate for patient safety conversations across technologies and throughout all health care settings.”

The NPSF Patient Safety Coalition was created to align stakeholders across the continuum of health care in a unifying mission to improve patient safety. Membership is open to myriad groups, including organizations working to address patient safety challenges, industry, professional associations, advocacy organizations, and others similarly committed. Coalition members gain valuable opportunities for networking, learning, and knowledge-sharing through quarterly webinars, an annual member meeting, special projects and events, and other high-value activities.

“We are very pleased to welcome Ivenix to the NPSF Patient Safety Coalition,” said **Tejal K. Gandhi, MD, MPH, CPPS**, president and CEO of NPSF. “We firmly believe that we can best make lasting advances in patient safety by learning from and sharing with experts in all sectors, and we look forward to having Ivenix add their voice as a member.”

About the National Patient Safety Foundation

The National Patient Safety Foundation's vision is to create a world where patients and those who care for them are free from harm. A central voice for patient safety since 1997, NPSF partners with patients and families, the health care community, and key stakeholders to advance patient safety and health care workforce safety and disseminate strategies to prevent harm. NPSF is an independent, not-for-profit 501(c)(3) organization. To learn more about the Foundation's work, visit www.npsf.org.

About Ivenix, Inc.

[Ivenix, Inc.](http://www.ivenix.com) is a venture-backed medical technology company with a vision to transform infusion therapy in every care setting. Technology within the infusion pump category has been slow to evolve despite an increase in the complexity of drug dosing regimens, demand for hospital EMR integration, and persistent patient safety issues. Ivenix is focused on bringing its first solution to market, a new and innovative infusion management system for hospitals. The company is headquartered in Amesbury, Massachusetts.
